WHAT: The Puget Sound and Columbia River Regions of ASPRS are hosting their 8th Annual Joint Information Exchange October 7. This event is an informal opportunity for people who are interested in the topics of photogrammetry and remote sensing to learn more about what's going on in our own region in resource management, government, academia, and business. The information exchange is a day-long event in which local practitioners may present a 15-25 minute talk on one of their current or recent projects. This is also an opportunity to learn new techniques, meet new contacts, and refresh old ones. Projectors (overhead, conventional, and multi-media) will be available, but presenters must be concise with their presentations and keep them under 10 minutes to allow for questions and timely proceedings.

Speaker slots will be limited to 18 due to the single-day schedule, so get your requests in early to insure your slot.

In addition to the visual presentations, each speaker will submit a 1-page description of the project and a 1-page profile of their organization (forms can be downloaded from the meeting website). The 1-page write-ups must be submitted before the meeting and compiled into a notebook for distribution at the meeting. Lunch and the notebook will be included in the registration fee.

WHO: ASPRS membership is not required. Anyone who wishes to share information about an interesting or unusual project in the areas of photogrammetry and remote sensing are welcome; we also encourage presentations on the increasing integration of these technologies with GIS applications. So please, extend this invitation to your colleagues who work in the areas of photogrammetry and remote sensing. No commercial presentations or endorsements are allowed.

Of course, non-presenters and students are certainly welcome to come learn more about what's going on around our extended region. We particularly want to encourage non-members to come find out more about ASPRS. As an encouragement, Student attendees who wish to join ASPRS the day of the session will have the registration fee waived. In addition, any person or company can sponsor a student by covering the \$10 registration fee, so please consider sending them to this session to learn more about our industry and society.
